

Successful Implementation of Network Inventory & Provisioning Solution

Ushacomm recently deployed a Network Inventory & Provisioning Solution for a South Pacific Multi Play Operator that has transformed the customer's Network Inventory Management and Provisioning process. The solution ensures operational ease, control over network resource and enhanced strategic planning capability.

Ushacomm's solution now acts as a single point Inventory and Provisioning Solution for varied types of network equipment and lines of businesses. This ensures transparency and control over network resource and operation, plugs revenue leakages and reduces human dependency.

Some of the Highlighting features:

- Automatic instant activation and deactivation of services
- Location based validation
- Service order and trouble ticket tasks linked with location based support

Ushacomm is the Telecom Solutions brand of Usha Martin Technologies. A global OSS/BSS provider with more than 55 installations worldwide, Ushacomm has vast experiences in developing, consulting, implementing & maintaining high end IT solutions for the Telecom Industry.
