

Ushacomm bags Interconnect Billing system order from APAC telecom service provider.

A leading telecom service provider in the Asia-Pacific region has selected Ushacomm to replace its existing interconnect billing system with Ushacomm's flagship partner settlement solution, Balios.

Balios features a full-fledged web-based user interface with system support for all types of Interconnect Rating & Billing Scenarios, enabling clients to manage unlimited Interconnect Agreements, performing reconciliation at invoice as well as usage level thereby facilitating accurate settlements to assure interconnect revenue share.

With a new and improved dashboard, the solution gives a comprehensive status view of Rejected data and CDR volume. The solution also supports pre-paid partner settlement scenarios.

Balios Partner SelfCare GUI comes along as add on services with Balios. It allows Interconnect Partners to login online from anywhere and view its demographic information, hubbing rates, agreement details and invoices.

A state-of-art LCR module is designed and integrated with the solution, offering comprehensive financial impact analysis of route, thus enabling advanced decision support capabilities to route the call optimally.

Ushacomm is the Telecom Solutions brand of Usha Martin Technologies. A global OSS/BSS provider with more than 55 installations worldwide, Ushacomm has vast experiences in developing, consulting, implementing & maintaining high end IT solutions for the Telecom Industry.
