

Ushacomm successfully upgrades the CCBS and replaces the Interconnect Billing Solution of TelBru.

Ushacomm together with its partner Folec, successfully upgraded its existing flagship CRM & Billing System (Unicorn 5) to the latest web-based version Unicorn 10 for its client TelBru, Brunei.

Ushacomm also replaced TelBru's legacy Interconnect Billing System (Redknee's – InBill) with the latest version of its light weight Interconnect Billing system – Balios.

The delivery stack also included Ushacomm's proprietary Self-Care Mobile App – Aetos; Direct provisioning from BSS to the network elements using Ushacomm's Mediation & Provisioning platform – Pegasus.

Highlights of the implementation include:

- End to end web based GUI supported by SOAP API based Service layer
- New modules like Lead Management, Sales Support & Commissioning, Discounts & Promotions as well as Online Credit Control & Dunning
- Several key system integrations such HSBC Payment gateway, Alcatel-Lucent's PCRF, SAP ERP and Sixth Sense Media's (Currently Evolving Systems) Loyalty and Campaign management system
- Convergent system serving Fixed Voice, ADSL, International Leased Line and Combo (Fixed Voice and ADSL) seamlessly through a single platform
- Completion of 2 successful commercial bill runs since the system go-live

Ushacomm is the Telecom Solutions brand of Usha Martin Technologies. A global OSS/BSS provider with more than 55 installations worldwide, Ushacomm has vast experiences in developing, consulting, implementing & maintaining high end IT solutions for the Telecom Industry.
